Profile

A skilled MERN stack developer with 2 years of experience in building web applications using the MERN stack (MongoDB, Express, React, Node.js). Proficient in both front-end and back-end development, and experienced in working with Agile methodologies and version control systems.

Experience

Techvoot Solutions
ahamdavad

march 2022 – Present

- Developed web applications using the MERN stack, with a focus on delivering high-quality code and user experiences.
- Worked with cross-functional teams to identify and solve technical problems, and delivered projects on time and within budget.
- Designed and implemented RESTful APIs to enable communication between front-end and back-end components.
- Conducted code reviews and provided constructive feedback to improve code quality and maintainability.
- Implemented best practices for application security and data protection.
- Optimized application performance and scalability through proper caching, load balancing, and database optimization techniques.

EDUCATION
BCA – Somnath
